*Before fees and expenses. **Not regulated by the Investment Company Act of 1940. These funds generate a K-1 tax form. †The fund is actively managed. The indexes shown for FUT and WYDE are reference benchmarks. ¹EMTY provides short exposure (-1x) to its index.

Geared (leveraged or short) ProShares ETFs seek returns that are a multiple of (e.g., 2x or -2x) the return of an index or other benchmark (target) for a single day, as measured from one NAV calculation to the next. Due to the compounding of daily returns, Geared ProShares' returns over periods other than one day will likely differ in amount and possibly direction from the target return for the same period. These effects may be more pronounced in funds with larger or inverse multiples and in funds with volatile benchmarks. Investors should monitor their holdings consistent with their strategies, as frequently as daily. For more on correlation, leverage and other risks, please read the prospectus.

Investing involves risk, including the possible loss of principal. ProShares ETFs are generally non-diversified and each entails certain risks, which may include risk associated with the use of derivatives (swap agreements, futures contracts and similar instruments), imperfect benchmark correlation, leverage and market price variance, all of which can increase volatility and decrease performance. There is no guarantee any ProShares ETF will achieve its investment objective. ProShares are not suitable for all investors.

Carefully consider the investment objectives, risks, charges and expenses of ProShares before investing. This and other information can be found in their summary and full prospectuses. Read them carefully before investing. Separate ProShares Trust II prospectuses are available for Volatility, Commodity and Currency ETFs. Obtain prospectuses at ProShares.com.

ProShares Volatility, Commodity and Currency ETFs are not investment companies regulated under the Investment Company Act of 1940 and are not afforded its protections. Investing in these ETFs involves significant risks. Investors could lose all or substantially all of their investment. ProShares Trust II (the issuer) has filed registration statements (including prospectuses) with the SEC for the offerings to which this communication relates. Before you invest, you should read the prospectuses in those registration statements and other documents the issuer has filed with the SEC for more complete information about the issuer and these offerings. You may get these documents for free by visiting EDGAR on the SEC website at sec.gov. Alternatively, the issuer will arrange to send you the prospectuses if you request them by calling toll-free 866-PR0-5125, or visit ProShares.com. These ETFs do not invest directly in commodities or currencies. These funds generate a K-1 tax form.
